

PLEASANT RESORT AT NEWMAN'S LAKE

A Gentleman of Capital Favors
Such a Proposition.

TROLLEY LINE FROM THIS CITY

The Prospects Are Very Favorable for
Such a Project—The Man Behind It
Has the Capital and Has Looked
Over the Property.

With the spirit of enterprise manifested by the people of Gainesville in every way, we have the assurance from a reliable business man of this city that there is a gentleman who has the money to push the project through, who has looked over the ground, and is favorably impressed with the idea of improving the site at Newman's Lake offered as a resort for the people of our city and also for those who come here to renew their health and enjoy the comforts of our busy little city.

There has been considerable talk along this line, but the gentleman who has the project in view has considered it for some time, has options on a good location, and although he is not ready to give up his plans and does not desire to have his name mentioned at present, is anxious to go ahead with the work before long.

Although the enterprise is not settled upon, there has been under consideration a trolley line to the Lake, where there will be a hotel and numerous cottages erected for occupation by parties who may desire them for a week, a month or a year. It is thought that there will be many of our business men who would patronize such a resort, where they could spend their spare time, and if they so desired could reside there in the summer and ride to and from their business every night and morning, rather than go farther from their homes. The rate for the round trip would be moderate, and as for picnic parties and moonlight rides on an open car, nothing could be more delightful.

With the present rapid growth of the city such a place will be most desirable, and The Sun has been assured from one of our reliable and stirring business men that the subject has been considered for some time, with a reasonable surety of being carried into effect in the near future.

ALACHUA ITEMS.

Cotton Ginning is Very Lively—A Few
Personal Items.

Alachua, Oct. 12.—Mrs. W. H. Sealey has returned from Daytona.

J. C. Sheffield of Lake City was in the city on business Saturday.

Postmaster S. C. Dell visited Gainesville Monday.

Miss Alice Cato is in Newberry at the bedside of her cousin, Miss Cora Cato, who is ill with fever.

Miss Willie Rogers, after a pleasant visit to her sister, Mrs. W. H. Sealey, returned to Barney, Ga.

Meroy Pearce, Jr., has entered school at Sutherland.

W. T. Gaston of Bell was in the city Monday.

Mr. Evans of Waldo spent a short while here this week.

Jerry Wells of Worthington visited Alachua Tuesday.

Mrs. J. P. Howell and daughter, Katie Smith, have moved to Tampa, where they will make their home in future. Their many friends here wish them well in their new home.

Cotton is coming in rapidly now, and the gins are crowded, causing a good deal of night work. It is the general belief that the bulk of the crop will be gathered by November 1st.

Frost at Memphis.

Memphis, Tenn., Oct. 12.—A slight frost appeared in Memphis and surrounding territory early this morning. Advice from points in Arkansas and north Mississippi indicate that a light frost generally prevailed. The weather today is clear and cool. Another frost is predicted tonight.

Druggist W. M. Johnson Says He Does
Not Charge Anything for Vinol
Unless it Gives Satisfac-
tory Results.

When asked by a reporter of The Sun how he could make such a broad offer in regard to any medicine, Mr. Johnson replied:

"If Vinol were a patent or secret preparation it would be another thing, but it is not—everything it contains is named on the label.

"Vinol is simply the up-to-date form of administering cod liver oil, which for centuries has been recognized as the grandest of all body-building agents for wasted human strength and vitality, and during the last five years we have seen it produce such grand results that we are now willing to back it with any kind of a guarantee.

"In Vinol we have simply done away with the useless, system-clogging oil and have given to the people all the medicinal, body-building elements of cod liver oil in a highly concentrated and deliciously palatable form, and we have never sold in our store a medicine of more curative and strengthening value than Vinol, and if the people of Gainesville only realized its value we would not have clerks enough in our store to supply the demand for it. In a natural manner Vinol tones up the digestive organs, makes rich red blood and creates strength. We can only ask the people of Gainesville to try it on our guarantee." W. M. Johnson, druggist.

Getting Ready for Reorganization.

Montgomery, Ala., Oct. 12.—The program for the reception and entertainment of President Roosevelt, who visits Montgomery on Oct. 24th, has been completed and given out for publication. There will not be the slightest hitch in extending the president every hospitality within the reach of the citizens. The city council put an end to all criticism Monday night by adopting a resolution for the appropriation of ample funds for the president's entertainment. Only three aldermen opposed the resolution and they did so, not because they did not desire to extend courtesies to Mr. Roosevelt, but because they thought it would be contrary to the city charter to appropriate funds for any such purpose.

Refused the Money.

Caracas, Venezuela, Oct. 12.—The Venezuelan telegraph department has tendered the money tendered for the transmission of cable messages by the Freda company's lines during the last fortnight of September to the chief of the Caracas bureau of the company, but the latter has refused to accept it on the ground that he has no instructions to do so.

Canadians Released from Prison.

Ottawa, Ont., Oct. 12.—Two Canadians, one named Grant, of Victoria and another named Finlay, of Pictou, N. S., have been released from prison at Montreal on application of the Canadian minister to the British American office. The men were captured by a Russian warship while on board a Japanese steamer.

NEWS TERSELY TOLD.

The Peruvian congress Monday approved the arbitration treaty with Italy and the postal convention with Bolivia.

The special committee of the Swedish riksdag appointed to consider the Karlstad treaty, today unanimously reported in favor of its ratification.

It is reported that Sir William Miller postmaster general of Canada, will retire from the cabinet and the house of commons. He refuses to confirm or deny the report.

Several very valuable gifts were received by the board of regents for the State University of California at its monthly meeting today. Mrs. Hearst's donation amounting to nearly \$500,000.

Dr. J. W. Ordway, a wealthy farmer and banker, of Los Angeles, Cal., died yesterday as a result of worry over the frequent attempts to rob him. During the last eight years he had been held up twelve times.

The steamer America arrived at Honolulu today enroute to San Francisco resuming the Japanese line service which was discontinued during the war. Local Japanese celebrated her arrival with fireworks and sent a committee out in a tug to meet her.

According to a dispatch from Dawson today, the gold shipments of the Yukon territory for the season of 1905 just closed, will run approximately to \$5,000,000. It is estimated that half or more of the Fairbanks output has gone to the coast this summer by way of Dawson.

Marines for Philippines.

San Francisco, Oct. 12.—The Southern Pacific passenger department has been advised that the Harriman lines and their connections have been awarded a contract by the navy department for the transportation of a large number of marines that are to be sent across the continent enroute to the Philippines during the next several months. It is expected that on an average of 150 marines will be moved each month for some months to come.

Multiple Screws.

Multiple screws were used as early as the American civil war on certain vessels known as "tin clads" on the Mississippi, their adoption being necessitated by the shallow draft. The great advantage they possess in securing a vessel against total disablement and for maneuvering soon made them the rule in the navy. They were much longer in coming into use in the merchant service. But since the era of the very large transatlantic steamers, beginning with the Paris and New York and the Teutonic and Majestic, all very large vessels have been built with twin screws.

The Wig.

The wig is older than civilization, for the savage used one to make him more formidable on the field of battle. The French revolution killed the article as a piece of headgear. Before the guillotine fell in France the wigs which adorned the heads of its victims cost \$150 to \$200. The costly decoration lingered a long time on official heads in England. So recently as 1858 Archbishop Sumner found it necessary to wear one at the marriage of the princess royal.

A Consistent Career.

"I can remember when the wealthy Mr. Hiden didn't have a dollar of his own," said the man who disparages. "Well," answered the misanthrope, "it is said that he is still doing business entirely with other people's dollars."—Washington Star.
